

Expandable Polystyrene (EPS) Applications

Leisure activity products

1. helmet

2. Ski board

Construction materials

1. Thermal insulation material

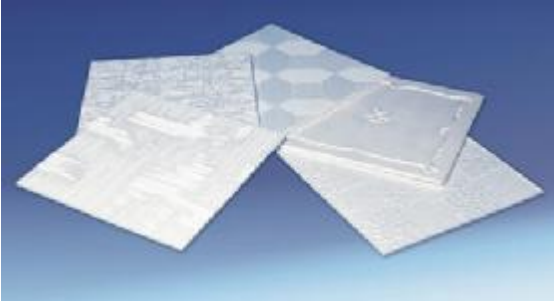

2. Bath thermal insulation

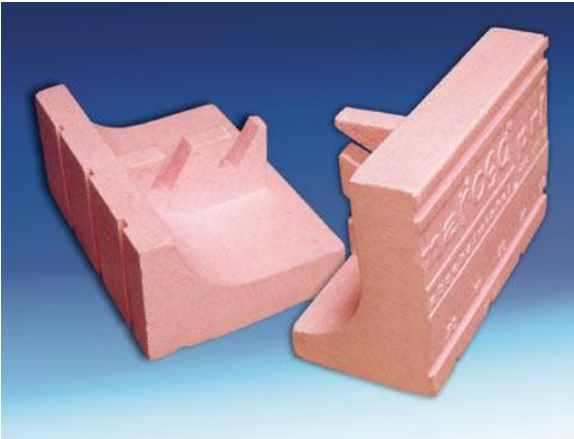

3. window seats

4. Ceiling decoration material

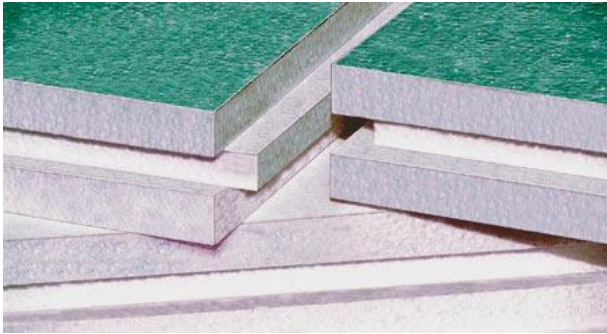

5. Angled insert for roller shutter boxes

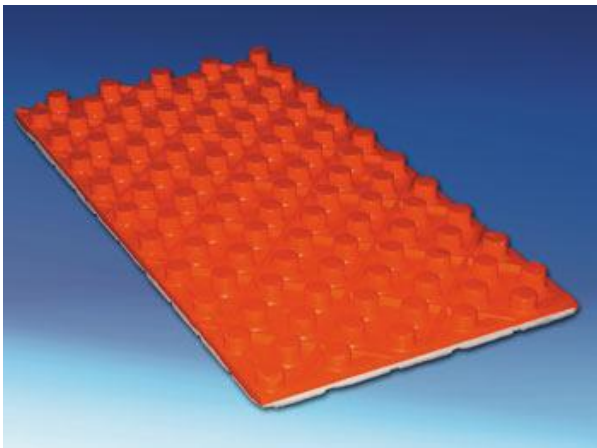

6, Perimeter sheet

7. Edge trimming

8. Insulation sheet for floor

9. Moulded suspended floor panel

10. Blocks as substructure of roads

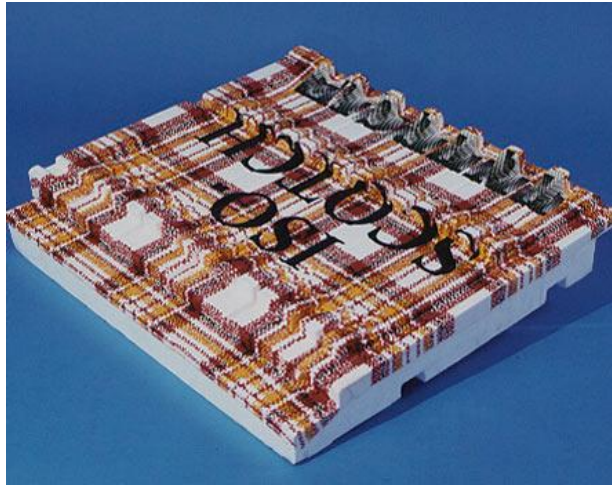

11. ICF blocks

12. Wall insulation

13. Roof Insulation Panel

14. Decoration

15. Ceiling bars

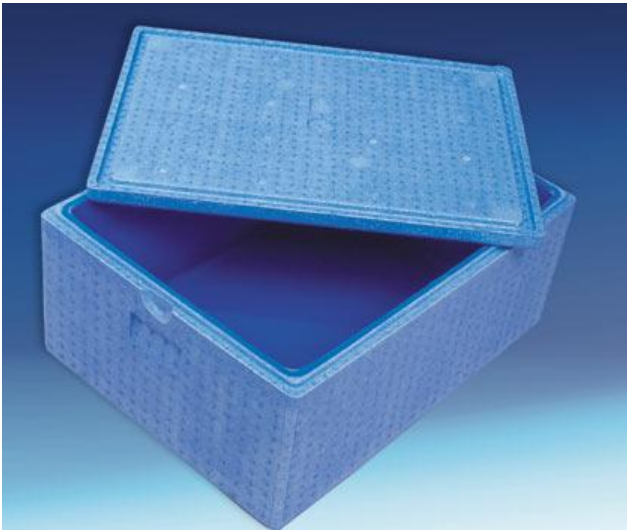

Food Packaging

1. Meat trays

2. Insulation box

3. Fish container

4. Ice cream container

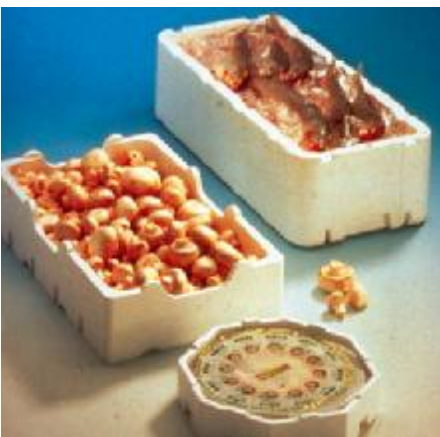

5. convenience food package

6. Fruit boxes

7. Food package

Other Package

1. Stove packaging

2. Scanner

3. PC package

4. Bottom cushioning element

5. Glass tanks package

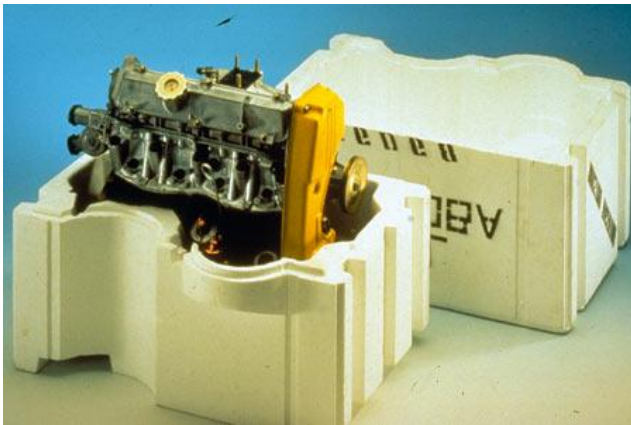

6. Package for bath fittings

7. Bottle package

8. Motor packaging

9. TV sets package

10. Seedling tray

11. Bottom cushioning element (dual density)

Automobile industry

1. Front bumper

2. Seat

3. Kids seat

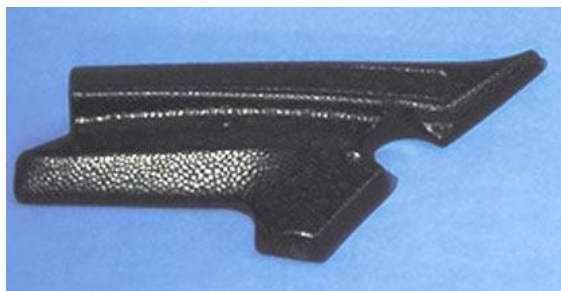

4. Shadow board

5. tool boxes

6. Others

7. Disappearing moulding technology
